Irrigation Industrial Engines

For more than 50 years now, Abunayyan Trading has been, and is still, one of the main drivers of the Saudi agricultural market, through its comprehensive range of diesel engines that power deep well pumps required to irrigate the kingdom's world-class farms.

Through various sales offices across farming areas in Saudi Arabia such as Qassim, Wadi Dawaser, Tabuk and Al-Jouf, offer farmers and farming companies comprehensive solutions for pumping groundwater from depths of hundreds of meters.

We use pivot irrigation engines with capacities ranging from 400Hp up to 1,000Hp, well known for their reliability and endurance.
