Preserving nature, Leading innovation....!

Preserving nature, Leading innovation....!

An aerial photograph of a dense urban landscape, likely San Francisco, taken at dusk or dawn. The image shows a variety of skyscrapers and buildings, with the Transamerica Pyramid being a prominent feature on the left. The city is tightly packed, with streets and smaller buildings visible throughout. The lighting is dim, with some buildings illuminated by their own lights, creating a contrast with the dark sky. The text "Preserving nature, Leading innovation....!" is overlaid in white, sans-serif font in the lower-left quadrant of the image.

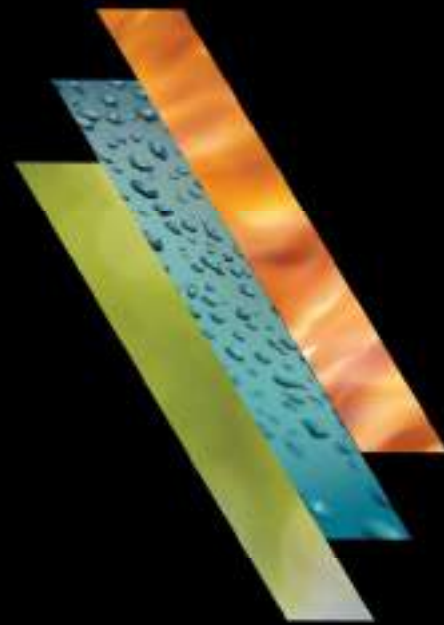

Preserving nature, Leading innovation....!

An aerial photograph of San Francisco, California, featuring the Transamerica Pyramid as the central focal point. The image is dark and moody, with the city's dense urban landscape visible in the background. The text "Motivated by an aspiring Market demand" is overlaid in white, centered horizontally and slightly above the middle vertically.

Motivated by an aspiring Market demand

ACFA اكفا

A person's hands are visible in the background, drawing a grid pattern on a whiteboard. The grid is composed of thin, light-colored lines. The hands are positioned on the left side of the frame, with one hand holding a pen and the other resting on the whiteboard. The whiteboard is the central focus, and the grid is being drawn on its surface. The overall scene is dimly lit, with the whiteboard providing a bright contrast.

“ even if we`ll never be able to change the world,
Our work should help
making our environment
a better place
for our existence”

A background image showing a person's hands holding a pen over a document with a grid pattern, possibly a blueprint or a technical drawing. The image is dimly lit, with the hands and the document being the primary focus.

“ even if we`ll never be able to change the world,
Our work should help
making our environment
a better place
for our existence”

رؤية VISION

المملكة العربية السعودية
KINGDOM OF SAUDI ARABIA

رؤية VISION

المملكة العربية السعودية
KINGDOM OF SAUDI ARABIA

An aerial photograph of a coastal landscape. The left side shows a dark, forested area with a winding path or stream. The right side shows a sandy, dune-like area with sparse vegetation. A bright sun is visible on the right, creating a lens flare effect. A green rectangular box is overlaid in the center, containing the text "OUR VISION" in white capital letters.

OUR VISION

An aerial photograph of a coastal region. The left side shows a rugged coastline with green hills and blue water. The right side shows a bright sun low on the horizon, casting a golden glow over the landscape. The sky is a deep blue. The text is centered in the middle of the image.

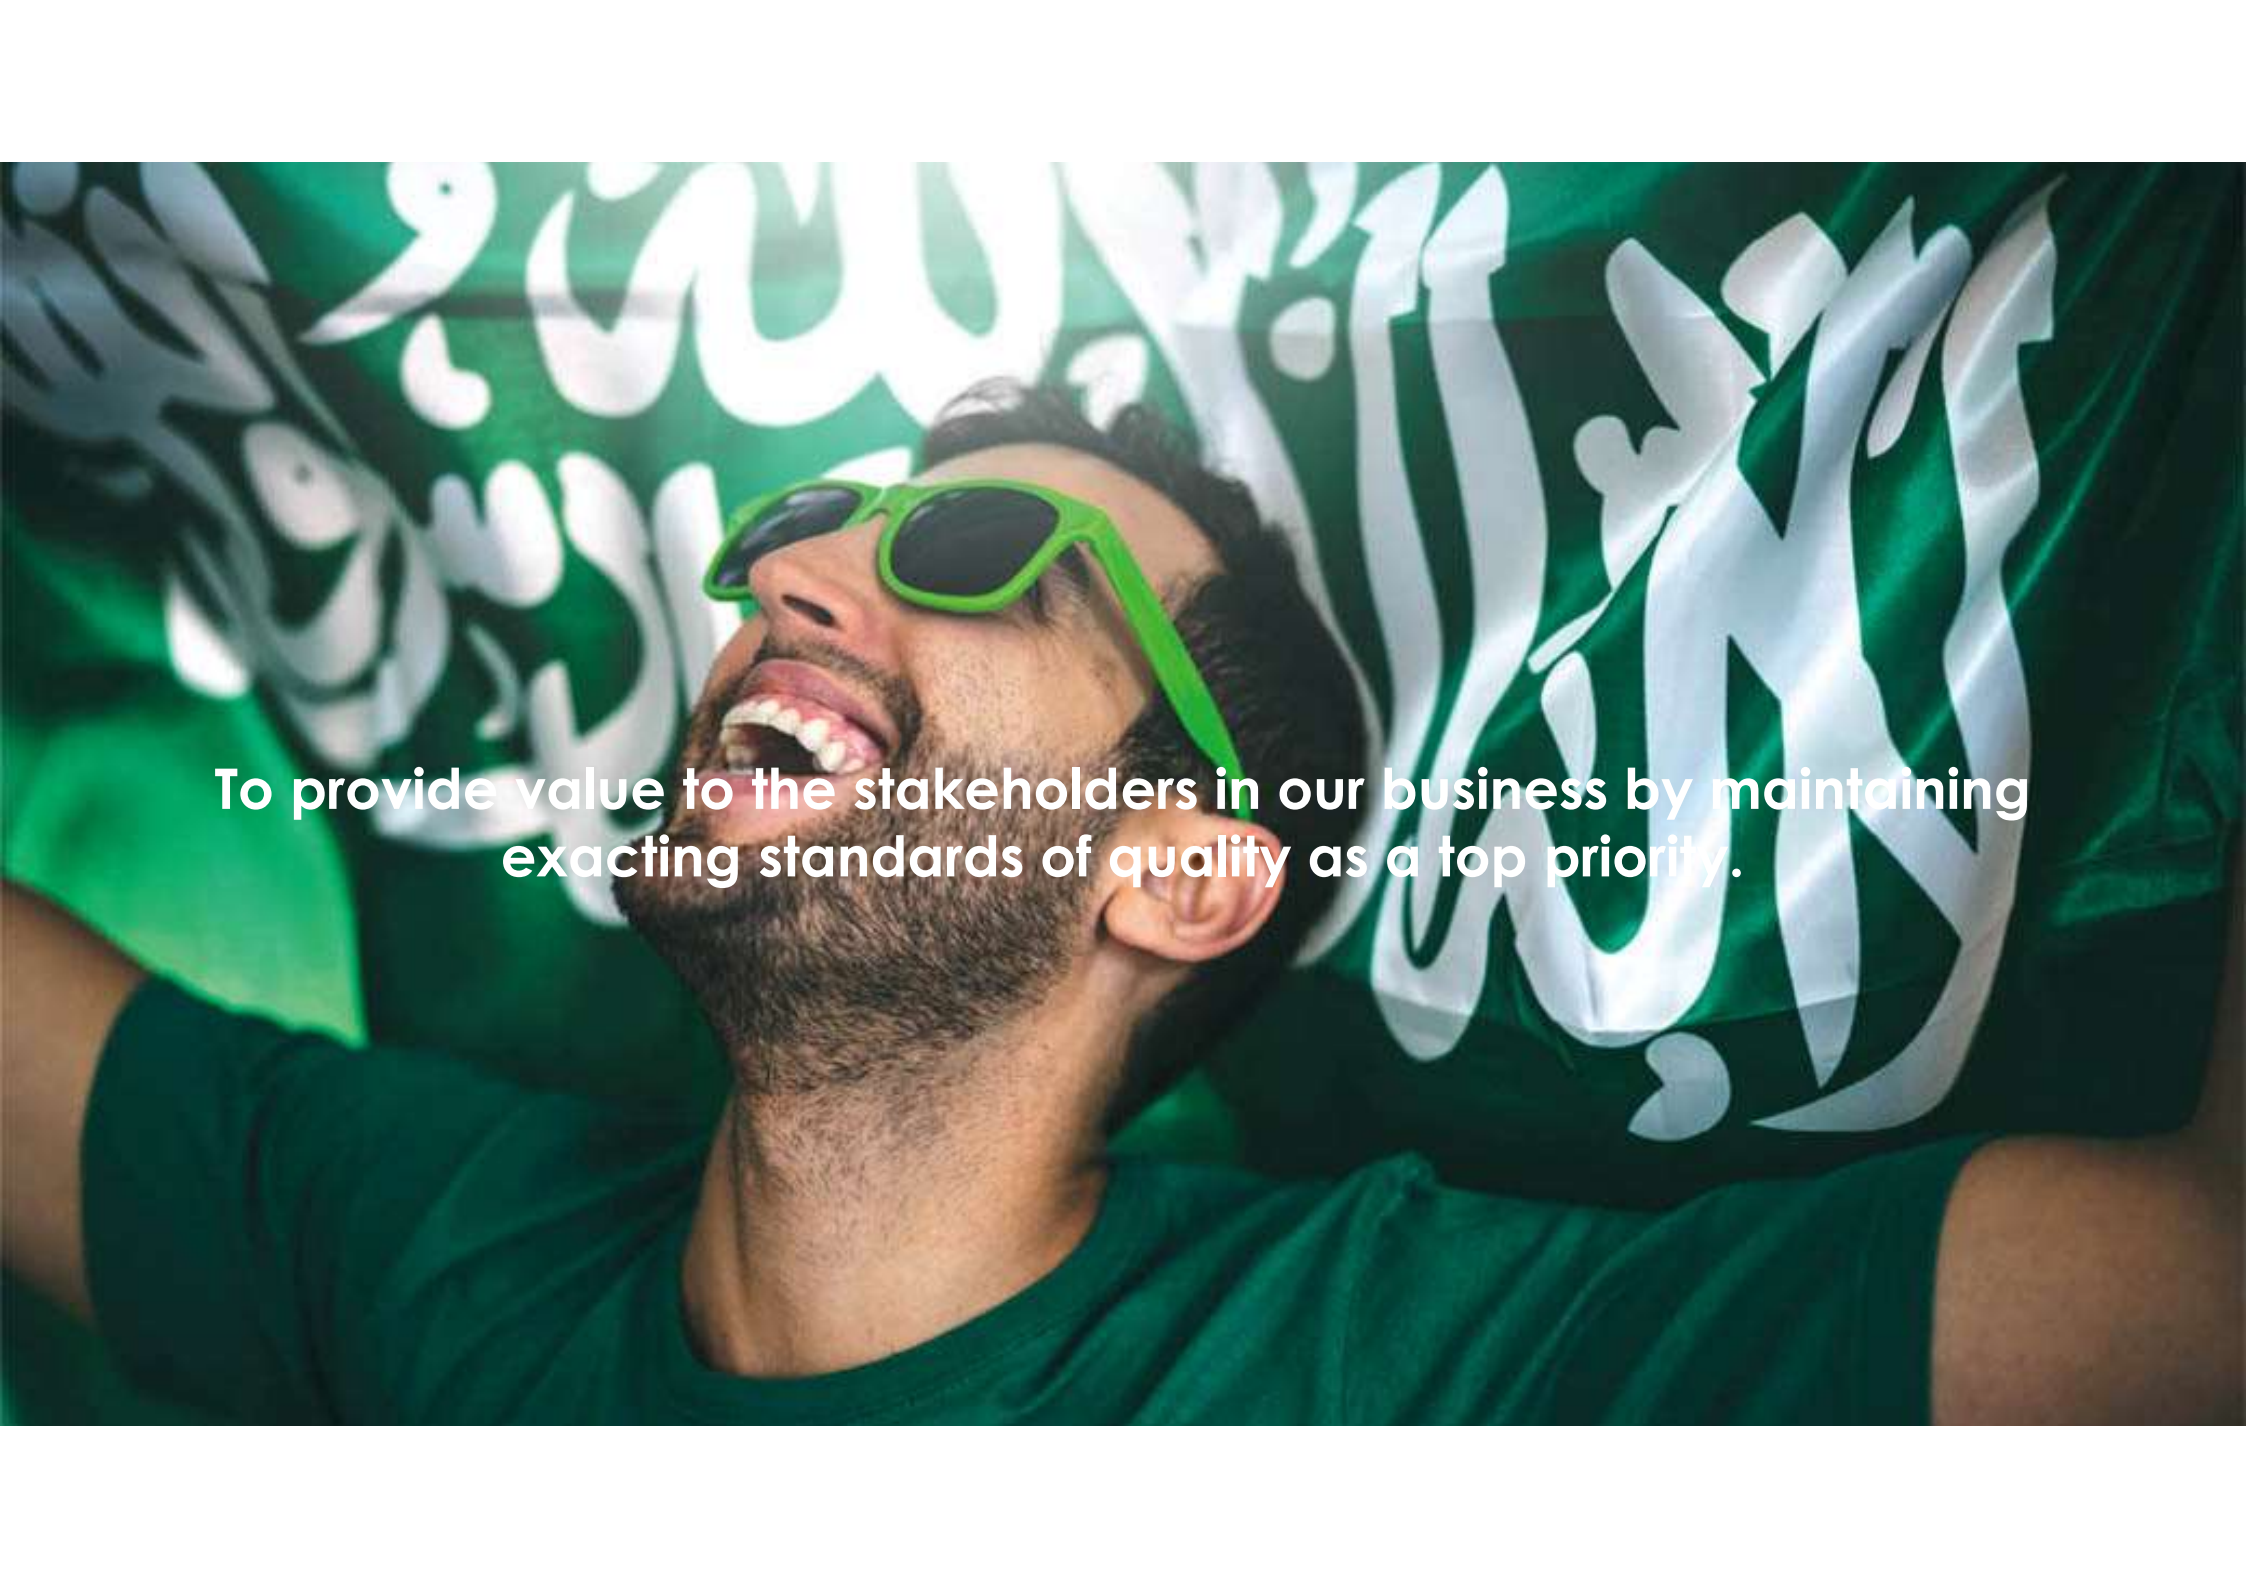

**To contribute continuously to the growth of the Saudi economy,
following the Kingdom`s 2030 vision.**

An aerial photograph of a massive open-pit mine. The mine is characterized by numerous terraced levels or benches, which are visible as concentric, curved lines descending into the earth. The rock faces of these terraces show varying shades of brown, tan, and grey, indicating different geological strata. A network of wide, winding roads or tracks crisscrosses the mine's interior, connecting different levels and sections. Several small yellow vehicles, likely haul trucks or excavators, are visible on these roads, providing a sense of scale to the enormous size of the excavation. The overall scene depicts a large-scale industrial mining operation.

To innovatively utilize the kingdom`s rich local resources and raw materials, reducing the dependability on imported products and cutting down its related logistic costs.

A close-up photograph of a man with a beard and mustache, wearing a dark suit, white shirt, and a striped tie. He is smiling and pointing his right index finger directly at the camera. His left hand is also visible, clenched in a fist. The background is a plain, light color.

To maintain and develop a respectable position among Fiber Cement market leaders in the Middle East and North Africa region.

A man with a beard, wearing green sunglasses and a green t-shirt, is smiling and looking upwards. He is holding a large Saudi Arabian flag, which features green and white horizontal stripes with white Arabic calligraphy. The background is filled with the flag's pattern.

To provide value to the stakeholders in our business by maintaining exacting standards of quality as a top priority.
