EI120 Fire Rated Facade

AW60 glass constructions are made of narrow aluminum profiles, the space of which is filled with patented fire-resistant, retardant cooling cores. Available in fire ratings E/EW/EI60, and EI120 with 60 and 120 minutes of fire protection respectively.

The products are fully tested in various European laboratories according to EN standards.

- Our AW60 facade system complies with EN 12600 standards
- Fire classification E/EW/EI60 and 120
- The barrier to thermal radiation
- Large panes can be configured with this system
- Aesthetic, narrow sightline of the system profiles: 60 mm
- Good sound resistance
- Single and multiple window panel design is available
- Surface finishing in RAL, NCS pallets or anodized
